

FROM FIRST EDITION OF SUNDAY PAPER.

COURT-HOUSE LOCALS.

A \$50,000 Damage Suit Filed in the Superior Court.

A \$7,000 Damage Suit Against the City—Other Suits—Notes Made in the Corridors.

The damage suit of Cassius M. Paine vs. J. A. Closser and others has been dismissed.

Philip Marshall was released by Judge Norton yesterday on his personal recognizance.

Judge Walker has given judgment in foreclosure for Robert T. Toney against J. W. Marice and others for \$2,422.50.

Judge Taylor, yesterday, granted a divorce to Elizabeth Irwin from James R. Irwin on proof of abandonment and failure to provide.

The assessors of the county met yesterday at Assessor Mosick's office and agreed upon a schedule of rates. The work of assessing begins on Wednesday.

The Wagner Car Door Company filed articles for record yesterday. Stock, \$100,000, divided into shares of \$50 each. T. A. Lewis, J. L. Wagner and C. S. Lewis are the directors and the office and place of business is to be in this city.

Hiram Kains and Levi W. Kains, doing a lumber business under the firm name of Hiram Kains & Brother, have filed suit against Leon Murray & Co. for damages growing out of a contract.

Plaintiffs claim to have sent an order for certain lumber to defendants in Tennessee, which they refused to receive. Demand \$5,000.

After the last of the month the Health office will insist upon prompt obedience to all notices to clean up and disinfect premises. Parties failing to obey notices served by the sanitary officer will be at once prosecuted in the Mayor's Court. The reason for this is the necessity for a thorough cleaning of the city in expectation of a visit by cholera.

Elizabeth G. Ireland has filed a petition for the removal of William H. Ireland, guardian of Elizabeth G. and George W. Ireland. The complaint is that he was ordered to sell and invest the proceeds of the real estate for the wards, but that he converted \$1,500 to his own use and otherwise mismanaged the assets; that for three years he has failed to make a report of the trust in court, and that he has, for some months, failed to provide for the support and education of his wards and has become and now is a habitual drunkard. Petitioner is a daughter of the defendant and is twenty years old.

Suit was filed yesterday in the Superior Court by John G. Blake and others against Nicholas McCarty and others, for partition of real estate claimed by plaintiffs as tenants in common, and to have been left them as the heirs of Jesse Blake, deceased. Certain other property adjoining, which is claimed by the defendants, or in which they claim some interest, being the subject of partition before the court. There are eight co-defendants to the suit, among them being three banks, Lake Superior, Five Banks, Nine Banks, the Farmers Loan and Trust Company, the Franklin Insurance Company, and the Trustees of Lake Superior, Cincinnati.

Samuel W. and Robert H. Patterson have sued the city for damages growing out of an alleged violation of a contract. Plaintiffs claim as contractors for the work of grading Indiana avenue from West street to Fall Creek, in April, 1883. Afterward the Board of Aldermen, on motion of Alderman Harrison, reconsidered the ordinance providing for the improvement of the street, Mr. Seibert, voting against the reconsideration. The matter was then referred to a committee of three, but it is alleged this committee never reported. Afterward the contract was awarded to other parties under a new ordinance. Plaintiffs claim to have died their bond and made preparations for the work on a grand scale at a cost of \$1,000. Also that by reason of the award to other parties after they had qualified under the ordinance by giving bond, they were damaged in the sum of \$6,000. Demand is made for \$7,000 damages.

William A. Neidhamer has filed a suit for damages against Harvey A. Gilbert, Levi H. Hamlin, A. L. Hunt and G. W. McCarty, for cause of action alleged to have occurred in March or April of last year. Gilbert, Hamlin and McCarty are charged with the purpose of obtaining and withholding from the city certain real estate in Pulaski county, this State, and Potawatomi county, Kansas, which he deeded to John A. Neidhamer, and the plaintiff transferring to him therefor a stock of hardware, worth \$25,000, and a brick block worth \$10,000, and in exchange also some houses and lots in other places valued at \$10,000, making a total of \$44,000. Plaintiff alleges that Gilbert and McCarty, in violation of the contract, have refused to return the real estate which he claimed to own. The first paragraph demands \$30,000 damages. The second charges also representations by Gilbert, Hamlin and a conspiracy on their part against McCarty, and concludes with a demand for \$50,000 judgment against them. The third paragraph alleges substantially the same facts, and charges that McCarty and McCarty were to be represented as the purchasers of the land were stock valued at \$15,000 from Gilbert, Hamlin, and the plaintiff, and to surrender the stock to plaintiff. Demand is made in this paragraph for judgment against each and all the defendants for \$50,000.

BASE BALL.

Mr. Young's Refusal to sign the Application of the Western League for Admission to the National Agreement Places Indianapolis in a Bad Position.

N. E. Young, Secretary of the National League, is being censured by all fair-minded persons because of his unscrupulous treatment of the Western organization. It has been very plainly demonstrated that he is not a fit man for the position he holds. When preparations were being made for the organization of the Western League the National League people, without hesitancy, told them that they would be made parties to the National agreement. With this delightful prospect in view, those interested in the new League hustled harder than ever before, and their efforts were attended with success in other words, the Western League was formed, and comprises some of the best paying base ball cities in the country. The application for admission to the National agreement was forwarded at once to the able Secretary above mentioned, and he should have attached his signature thereto without delay, and he didn't, and there's where the shoe pinches. He filed the application after a pigeon hole no doubt, and there it remains without his signature. Hence the Indianapolis and other Western League clubs are at the mercy of the National League and American Association clubs. Any of the clubs can step in and induce an Indianapolis player to break his contract, and the organizations of which they are members will sign them in the act. It would seem from this that the player's contract is not worth the paper it is written on, and that the Western League at present has no more "business" with the other organizations than did the defunct Union Association.

It is generally conceded that Young's failure to endorse the application of the Western League is because of a burning desire on his part to give the "millionaire" "wrecker" of St. Louis and the Detroit Club a chance to secure players. McCarty has found in this move that the League is as obstinate as a mule, and that there isn't a ghost of a show for his aggregation of contract-jumpers, hence he is in desperate straits, and players must be had. With the Western League in its present unprotected state, Mr. Lucas and the manager of the Detroit Club can easily secure material to cope with the more powerful National League Club, and there is every indication that they will avail themselves of the opportunity immediately.

A representative of the Sentinel met Mr. Barnard, one of the Directors of the home club, last night, and while he did not believe that any of the local players would jump their contracts, he admitted that they could do so without fear of being black-listed—that is, if they jump before Tuesday night at 12 o'clock, he being under the impression that the mighty Young will attach his signature to the application on Wednesday, April 1.

Impure Smallpox Virus.

A South Meridian street merchant, George W. Snider, is said to be suffering from blood poisoning, which is the result of vaccination with bovine virus more than a year ago. It is claimed that the physician who used the matter did so under protest, and only because the Health Board had ordered it. The merchant declares that he would rather have an attack of smallpox every year than suffer as he does from the effects of the vaccination. The poison has permeated his whole system, and monthly operations to remove the pus that collects in va-

rious parts of his body are necessary. An operation of this character was recently performed upon his side, and pus is now collecting in his hip, and his suffering is intense.

THE RECORD.

Showing the Marriages, Births and Deaths During the Past Week.

MARRIAGES.
William F. Buxter, Augusta Reimann.
John W. McCallahan, Alice Keen.
Edward Gambold, Cora Greissman.
Edward Devenish, Sylvia Kool.
Robert Phillis, Louisa Smith.
James McKee, Laura Bardeen.
Frank Roetzel, Mary H. Cole.
McConnell, Adeline Davidson.
John G. Daniels, Mattie Robinson.
Isaac Cotton, Alice Wilson.
Herdin Wells, Della Slaughter.
James Ferrell, Della Jones.

BIRTHS.
Morton and Mary Ward—girl.
Joseph and Belle May Hamilton—boy.
Charles and Grace Morrison—boy.
Alexander and Minnie Redden—boy.
George H. and Sarah L. Jones—girl.
Wesley and Anna Howard—girl.
William and Minnie Redden—boy.
Alfred and Sophie Andrews—boy.
J. L. and Lila Ketcham—boy.
William and Fanny Gessel—boy.
Professor and Mollie Harris—girl.
Joseph and Victoria Broyles—boy.
Alfred and Jane Hay—girl.
John and Ida Noble—girl.
W. H. and Maud Martz—girl.
Albert and Ora Schad—girl.
George and May Hens—girl.
Isaac and Sarah McMurry—boy.
Louis and Ella Aker—girl.
Ryland and Fanny Good—girl.
Andrew and Johanna Schmeitger—girl.

DEATHS.
Claude Berger, twenty months, malaria fever.
Christian Ritter, eighty-four years, debility.
Carrie Brown, fourteen years, consumption.
Louise Schilling, twenty-one years, phthisis pulmonalis.
Dora Titas, fourteen years, epilepsy.
Nina Smart, nine months, measles.
My Frederic, four months, bronchitis.
Rosa Bell, thirty-eight years, softening of the brain.
Mary Ann Wooten, twenty-three years, spinal meningitis.
Samuel Breckenridge, eight years, typhoid fever.
George G. Troxell, eleven years, inflammation of brain.
Craig, sixty years.
Hannah Apple, sixty-two years.

AGRICULTURAL AND HORTICULTURAL.

Monthly Meeting of the Marion County Society—An Interesting Address by Professor Hay—Election of Officers.

The regular monthly meeting of the Marion County Agricultural and Horticultural Society was held yesterday afternoon in the rooms of the State Board of Agriculture, with President Johnson in the chair. The standing committee on all Branches of Agriculture, appointed at the last meeting of the society, submitted a lengthy report relative to the condition of the crops. Wheat, the report stated, had been comparatively unimpaired, but the present dry weather would have anything but a good effect upon it. Peas, peaches and cherries had been badly injured, while the apple crop would be all but ruined. One-half of the bees in the county had been killed by a recent cold weather. The report was accepted and the society proceeded to carry out the regular programme.

Professor Hay, of Butler University, delivered a highly interesting address on "Practical reasons for the study of natural history," in which he referred to the various diseases with which animals are afflicted, and more particularly those of the human race. He read a paper at the last meeting, and Hon. W. E. English for his recent generous donation of garden and flower seeds. Mr. A. Smith, who was to have read a paper, was not present, much to the regret of the society. The next meeting will be held on Friday, April 3, at 8 o'clock, and on motion of Professor Johnson, the Secretary was instructed to call the roll of the society for the present income, which he did and announced the re-election of the following: President, Sylvester Johnson; Treasurer, Mary Donley; Secretary, W. E. English; Directors, J. Howard, Center Township; W. B. Fick, Lawrence; S. Fry, Franklin; Alexander Perry, Township. The seed donated by Mr. English were then distributed to the various members, and the society adjourned.

THE RAILROADS.

The Peo Line brought in a large party of emigrants from the East yesterday. They are bound for points in the far West.

Mr. McMahon, formerly Road Master of the I. and St. L., will go into the mercantile business in Chicago in a few days.

The places of the striking brakemen on the Lo-ran Division of the Pan-Handle have been filed, and an official of the road claims that they had ten applicants for every strike.

The employees of the Kentucky Central have composed a piece of poetry relative to George S. Bender, recently appointed Superintendent of the Indianapolis Division and Springfield Road.

The principal point to be discussed at the meeting of Wednesday next is the business which originated west of the Mississippi River is forwarded without passing through a pool point. This formed one of the chief troubles of the Vandalla.

W. H. Hubbard, General Freight Agent of the Vanderbilt Road, has been called to Chicago for the purpose of restoring rates to a twenty-cent basis. The Star Union line has been taking freight at eighteen cents since a cut was made at Chicago. All other lines adhered to the old rate, twenty cents. The Star line operates over the Vandalla, and yesterday rates were at the old figures again.

Passenger Agent W. S. Baldwin, of the Louisville, New Albany and Chicago Road, passed through the city yesterday en route to Chicago, from the New Orleans meeting of General Passenger Agents. Mr. Baldwin said that the Monon was enjoying a tremendous business both through and local. The business of the Air Line is expected to be very heavy.

The Northwest, Major Emmett, District Passenger Agent, reports that the sale of tickets at the South Illinois street office for the present month amounts to \$2,000.

Fourteen new passenger coaches and two new dining cars are to be put in service on the Air Line Division, also 500 freight cars and four locomotives. Although there has been no official verification of the rumor it is generally conceded that the Monon are certainly showing considerable push and energy.

FATAL ACCIDENT.

A Former Indianapolis Lady Burned to Death in Chicago.

Mrs. Jennie Sanford, said by the Chicago papers to have been a resident of this city, was fatally injured, on Friday night, by the explosion of a kerosene lamp and died the next day. The lamp was suspended from the ceiling, when the chain broke, and falling upon the floor the burning fluid was thrown upon her. No one else was in the room but her only daughter, a child of five years. "Don't come near me," cried the mother, as she grasped some coverings and tried to smother the flames. It was in vain, and to save her child she rushed down stairs and out of the house, leaving a trail of fire behind. She made straight for a little pond of water in a vacant lot near by and threw herself into it. The child followed, fell down stairs and was severely burned by the stream of fire the unfortunate woman left behind. A neighbor saw the sheet of flame rushing across the lot, and on proceeding to the pond found the woman nearly dead. Mrs. Sanford's husband is a traveling man, and was not in Chicago at the time of her death.

"SPECIAL GIFTS."

Abstract of Rev. J. A. Rondthaler's Sermon at the Tabernacle Church.

Rev. J. A. Rondthaler, of the Tabernacle Church, preached an interesting sermon yesterday morning to a large congregation, taking as his theme "Special Gifts." The speaker began by referring to the trouble in the Corinthian Church when Paul wrote them "to covet the best gifts." This stain had been brought upon this church by gross immorality on the part of one of its members. There had been serious irregularities in the celebration of the Lord's supper. The members of this infant church had been betrayed into heated controversies about the ability and integrity of the different apostles who had preached to them. By reason of the discord brought about by their discussions the church was soon cut up into small parties arrayed against each other. In the first ages of the church, the speaker said, there were given to certain persons peculiar powers called "gifts." The "gift of faith," for instance, or, in other words, an ability to perform wonders. These gifts had been given by the spirit indiscriminately. The church they said could not get along without them. Paul, he said, meets this trouble with a masterly hand, showing that possession of gifts should make no difference between them.

"As we understand gifts," said the speaker, "they imply those natural qualities which individuals are endowed. We use the term often in ordinary life. We call one a gifted musician, a talented artist. One man has a faculty for business, another has executive ability, another is apt in the mechanical arts. One mind is inventive, another imaginative. Some are practical, others are theoretical. Now, one person is that we are to honor their respective gifts, talents and capabilities. They are gifts as much as the sunlight, the rain and the gold and silver in the mountains. I am inclined to believe that much of the failure in life is the result of people trying to force the talents in ways and occupations that are contrary to their natural qualities. The world has lost some splendid business men because this man or that, under a false impression, imagined himself called to the pulpit and preach, and the pulpit has been vacant because some man who ought to be there is making a wreck of himself elsewhere." A woman, the speaker said, also ought to have a right to exercise her natural talents and abilities. No one had a right to force her to continue her occupation and close other doors against her. One of the saddest sights was a man or woman out of place, and every one was out of place when he or she was trying to do that for which they were not fitted. It was not right to force upon children occupations for which they had neither taste nor talent. Mr. Rondthaler concluded by saying that gifts were natural, grace was acquired by prayer, by association with God, and by companionship with the Lord Jesus Christ.
